

The book is the result of an exhaustive research effort, including the author's review of more than 20,000 pages of court records of the longest case in U.S. history, that he presents in a clear and objective narrative. Kimber's style is riveting from the first page to the last as he leads the reader through the twists and turns of their mission leading up to the arrest of the Cuban 5. The book shows how embedded the case is in U.S. – Cuba relations while being so hidden from the U.S. public. Stephen Kimber is a professor of journalism at the University of King's College in Halifax and an award-winning writer, editor and broadcaster.
